If you require a formal approval certificate, please advise via reply email.

CONDITIONS OF APPROVAL

Please ensure you and other team members read through and understand all UHREC conditions of approval prior to commencing any data collection:

- Standard: Please see attached or <http://www.orei.qut.edu.au/human/stdconditions.jsp>
- Specific: None apply

Whilst the data collection of your project has received QUT ethical clearance, the decision to commence and authority to commence may be dependent on factors beyond the remit of the QUT ethics review process. For example, your research may need ethics clearance from other organisations or permissions from other organisations to access staff. Therefore the proposed data collection should not commence until you have satisfied these requirements.

Please don't hesitate to contact us if you have any queries.

We wish you all the best with your research.

Kind regards
