SIHRERB Remarks

The Solomon Islands Health Research and Ethics Review Board (SIHRERB) considered the above protocol at its review held on the 14th November 2016 and is pleased to advise it is satisfied that this protocol meets the requirements as set out in the Solomon Islands ethical guideline. Having taken into account the advice of the committee, the chairman of the SIHRERB has approved the project to proceed.

Would you please note:-

- Approval is valid from **14th November 2016 to 31st December 2020**
- You are required to provide a final report of your study to SIHRERB and upon the request of SIHRERB.
- You are required to immediately report to the SI Ethics Secretariat anything which might warrant review of ethical approval of the protocol including:
 - Serious or unexpected Adverse Effect (SAE) experienced by the participants,
 - Proposed changes in the protocol,
 - Unforeseen events or new information (e.g. from other studies) that might affect continued acceptability of the project or may indicate the need for amendments to the protocol.
- You are required to complete the MHMS data access form prior to obtaining information from the hospital records and the DHIS records.
- Copies of consent forms are to be retained within the archives of the SI MHMS NVBDCP.
- Any modifications must have prior written approval by the SIHRERB
- If the research project is discontinued before the expected date of completion, the Principal Investigator is required to inform SIHRERB and relevant institutions.

The SIHRERB executive wishes you every continued success in your research.

SIHRERB Chairman (Name) Dr CHILU BUCETA
