

Intra-operative Questionnaire - Prevalence and Severity of Endometriosis at Laparoscopic Treatment of Tubal Ectopic Pregnancy

1. What is the patient's Unit Record (UR) number?

2. Who is completing this survey?

3. What is your designation? (e.g. registrar, consultant, etc.)

4. Are laparoscopic findings consistent with a tubal ectopic pregnancy?

- Yes - right tubal ectopic pregnancy
- Yes - left tubal ectopic pregnancy
- No visible ectopic pregnancy
- Other (please specify) e.g. ectopic pregnancy other than tubal

Intra-operative Questionnaire - Prevalence and Severity of Endometriosis at Laparoscopic Treatment of Tubal Ectopic Pregnancy

5. What tubal pathology, if any, is evident on laparoscopy?

- No tubal pathology
- Tubal ligation
- Filmy tubal adhesions with no distortion of anatomy
- Distorted tubal anatomy
- Hydrosalpinx
- Partial salpingectomy
- Other (please specify)

6. Is there any laparoscopic evidence of endometriosis?

- Yes
- No
- Unsure - biopsy taken for histological examination
- Unsure - no biopsy taken for histological examination

Intra-operative Questionnaire - Prevalence and Severity of Endometriosis at Laparoscopic Treatment of Tubal Ectopic Pregnancy

r-AFS classification of endometriosis

7. Superficial peritoneal endometriosis

<1cm	1-3cm	>3cm	No superficial peritoneal endometriosis
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

8. Deep peritoneal endometriosis

<1cm	1-3cm	>3cm	No deep peritoneal endometriosis
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

9. Right ovary superficial endometriosis

<1cm	1-3cm	>3cm	No right ovary superficial endometriosis
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

10. Right ovary deep endometriosis

<1cm	1-3cm	>3cm	No right ovary deep endometriosis
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

11. Left ovary superficial endometriosis

<1cm	1-3cm	>3cm	No left ovary superficial endometriosis
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

12. Left ovary deep endometriosis

<1cm	1-3cm	>3cm	No left ovary deep endometriosis
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

13. Pouch of Douglas (posterior culdesac) obliteration

Partial	Complete	No Pouch of Douglas obliteration
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

14. Right ovary filmy adhesions

<1/3 Enclosure	1/3 - 2/3 Enclosure	>2/3 Enclosure	No filmy right ovarian adhesions
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

15. Right ovary **dense** adhesions

<1/3 Enclosure	1/3 - 2/3 Enclosure	>2/3 Enclosure	No dense right ovarian adhesions
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

16. Left ovary **filmy** adhesions

<1/3 Enclosure	1/3 - 2/3 Enclosure	>2/3 Enclosure	No filmy left ovarian adhesions
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

17. Left ovary **dense** adhesions

<1/3 Enclosure	1/3 - 2/3 Enclosure	>2/3 Enclosure	No dense left ovarian adhesions
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

18. Right fallopian tube **filmy** adhesions

<1/3 Enclosure	1/3 - 2/3 Enclosure	>2/3 Enclosure	No filmy right fallopian tube adhesions
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

19. Right fallopian tube **dense** adhesions

<1/3 Enclosure	1/3 - 2/3 Enclosure	Complete enclosure of tubal fimbria	>2/3 Enclosure	No dense right fallopian tube adhesions
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

20. Left fallopian tube **filmy** adhesions

<1/3 Enclosure	1/3 - 2/3 Enclosure	>2/3 Enclosure	No filmy left fallopian tube adhesions
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

21. Left fallopian tube dense adhesions

<1/3 Enclosure	1/3 - 2/3 Enclosure	Complete enclosure of tubal fimbria	>2/3 Enclosure	No dense left fallopian tube adhesions
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

22. Is there any additional endometriosis?

- No
- Yes (please specify)

23. Is there any associated pathology?

No

Yes (please specify)
