

**ETHICS REVIEW COMMITTEE**  
**GOVERNMENT COLLEGE UNIVERSITY FAISALABAD**

Ref. No. GCUF/ERC/ 62

Dated: 14-03-22

**CERTIFICATE OF APPROVAL**

Members of the Ethics Review Committee, Government College University Faisalabad have evaluated the research proposal entitled

Effect of administration of zinc supplementation on lipid profile and uric acid in smokers and non-smokers

Submitted by

Amna Anwaar (Principal Investigator), supervised by Dr. Malik Hassan Mehmood.

The evaluation committee believes that the likelihood and degree of discomfort to humans subjects expected during this study are not greater than those usually faced in daily life or during the performance of routine physical examinations or tests. Furthermore, no genetically modified organism is being used in this study and during this study there will be neither any hazard to the environment nor any chance of COVID-19 dissemination.

The study has been approved for a period of 2 years w.e.f. ....15-02-2022.....

The investigators will follow the tenets of declaration of Helsinki and Stockholm Convention. If any change is registered in the protocols of study or any extension in the period of the study, it should be notified to the Ethics Review Committee for approval.
